GYMLES

FOR REAL ESTATE

A gym that gets used.

Gymles sets up the gym, fills it with group classes and is your point of contact. That makes the gym a reason to be in your building.

How it works for real estate

ACTIVATION

The gym is already there. We bring the classes and get as many companies in your building as possible to join.

UPGRADE

There is a gym that could be better. We bring it up to Gymles level.

TURN-KEY

An empty space from 90 m². We take care of everything, from design to the first class.

What Gymles brings to your building.

Group classes

A fixed schedule for everyone in the building, if you want one. Otherwise smaller tenants share a class.

Business Private

Always possible: tenants book their own fixed group class for their team.

Personal training

For anyone in the building who wants one-on-one training.

Gym service

We keep the gym tidy and sort it out when something breaks.

Come and see The Lobby.

See what a Gymles gym looks like and how it works in real life.
